We have been involved in the Aggregate, Sand and Gravel and Recycling industries since 1978. We have developed a reputation for representing quality manufacturers and providing service to our customers after the sale.

Our objective is to help you increase your productivity and reduce costs through proper application and selection of the highest quality new and used equipment available. We have the ability to provide Plant Studies, Aggflows, Quotations on Complete Portable or Stationary Processing Systems, Quotations on Individual Pieces of Equipment, Plant Layout Drawings and Locating Used Equipment.

Please give us a call- Let us put our expertise to work for you!

A McLanahan Logwasher cleaning clay from pea gravel which is then fed to a Deister wash screen for sizing. The screen decks are equipped with Polydeck Polyurethane panels to prevent blinding and pegging and allow for more open screening area. The product is a minus 1/2" pea gravel and a 2" x 1/2" metallurgical stone.
